Enthusiastic, organised and meticulous Hair Dresser over 20 years of experience developed through clients from private and public organisations across Italy. Outstanding interpersonal skills and ability to swiftly build rapport and credibility, proven track record of success in movies industry, salon management and managing customer relationships at all levels of seniority.

Strong key management skills and capacity to prioritize, multi-task, and work effectively under pressure to meet deadlines and exceed targets.

Studied at the National Cinema Academy and I shot films and spot like Head Hair Department.

Managed Salon, trained employees, created hair books, developed partnerships in collaboration with important brands and important products, opened my own salon and now a new studio with a pro-medical concept,

I use assist customers using management database like a real medical office, creating for each of them a "clinical file of the hair" with innovative machinery such as oxygen therapy and micro-camera for skin and hair analysis.

I feel the need to evolve further and improve my techniques, always.
